

I never realized just how complicated the accounting tax and set up issues are. I really appreciate the education you gave me early on. You should teach a class or write a book on this. I really appreciate your patience with me and will definitely be using your services.

Thanks so much for your quick reply yesterday, it is a great example of the considerable professionalism and fantastic service you have provided throughout the life of our relationship. It is also a testament to the considerable value proposition you offer Hedge Fund managers. In my experience, out of all of the various "turnkey" partners I have been working with over the last year or so, you are the only one that I can in good conscience say I have thoroughly enjoyed working with (for a variety of reasons). The bottom line is that I can't thank you enough for everything you have done, and am looking forward to our continued relationship going forward.

I am happy to report that {client name} has decided to invest. This is by far the largest investment by any single individual so far and I want thank you for all of your help and assistance. It was very evident that you took time to prepare for the conference call. I think hearing all of the facts, especially about the decline in the Fund earlier this year from an independent third party was just what was needed.

Thanks for promptly completing the tax return. I am so glad {name} recommended you. I wish I had engaged you when I started the fund. I've learned the hard way about all of the options I could have elected. When you have a chance please give me a call about tax planning for next year. I need to get this right going forward. Let's also talk about your administration services. {Current provider} isn't working out.

Thank you for letting us rework our service contract with you. Things have not progressed as planned and you have no idea how much this helps us. It is people like yourself that we are grateful to be doing business with. We plan to be back on track this year. Bless you.

I wish to recommend another associate to you {information deleted}. They are in start up and would like to discuss your services. Like my Fund they are focusing on FX and Commodities trading, although I think some equity securities will be in the portfolio too. He is new to the world of Funds and if you'll spend the time with them as you did me I think they would be forever grateful. Let me know how all goes. Keep up the great work!

Thank you for all of your assistance in launching our Company's third fund. We could not have done it without you. We have been so busy running our portfolios that expanding the business was not possible. You took care of all the details while we ran our existing Funds. I also don't want to leave out a word of thanks for the great administration services you are providing for the other Funds as well. Dan and Lyn are fantastic. I wish we had engaged you when we launched our first fund.
